After consultation USG, Argentine COAS Rep has circulated to other

COAS Reps text following proposed Resolution re command of forces in Cuban
action for approval by COAS/OC Nov. 5:

CUOTE COAS/CC Resuelve, (1) Tomar debida nota de las contribuciones militares y de otro genero que has efectuado y efectuen estados miembros para dar cumplimiento a la Resolución del COAS/CC, 23 octubre;

(2) Invitar a estados miembros que participen con efectivos militares
otra contribución a defensa continente, tomar directamente entre ellos medidas
de caracter tecnico necesarias para el bloccer acción coordinada y eficaz de
las fuerzas combinadas. UNQUOTE

Resolution appears to us satisfactory method handling political problem presented to some contributing countries, and should not create difficulties for non-contributors. Limits participation to ~~some~~ these countries actually contributing forces or facilities and thus preferable Venezuelan idea meeting of ECLA and Ministers ARs or use of IADB. Moreover, language sufficiently flexible to permit arrangements in practice which leave actual cost and control in US hands as it must be.
